Keyboard shortcuts

Every key LOOM answers to. Print it, keep it by your rig, and leave the mouse alone.

START WITH THESE TEN

⌘ 1 / ⌘ 2 / ⌘ 3	Looper, Arrange, Mixer
Space	Do what the focused ring says next
← / →	Previous or next track
M / S	Mute or solo the focused track
⌘ .	Stop the transport
⇧ ⌘ .	Stop the focused track
⇧ Return	Perform the arrangement from bar 1
⇧ Space	Perform from the playhead
⌘ Z	Undo
⌘ S	Save the song

01 · SHIFT TO PERFORM

Bare Return and Space belong to the focused ring. Hold Shift and they perform the arrangement instead.

02 · ⌘ ARROWS ARE MACOS

An arrow with ⌘, ⌥ or ^ held passes to the system unless this sheet lists it. On the playhead and song end marker it acts as a bare arrow.

03 · MENUS WIN

Menu keys work from any view and any control. While a dialog is open, they do nothing.

Menus and the main window

FILE — MENU

⌘ N	New song
⌘ O	Open song…
⌘ S	Save
⇧ ⌘ S	Save as…
⌥ ⌘ R	Record setup: what RECORD writes
⌘ /	User guide
⇧ ⌘ R	Report a problem (saved locally, never sent)
⌘ Q	Quit. LOOM saves your song first

VIEW — MENU

⌘ 1	Looper
⌘ 2	Arrange
⌘ 3	Mixer
⇧ ⌘ L	Show the session log
⇧ ⌘ M	MIDI Mapping window

TRANSPORT — MENU

⌘ .	Stop the transport and every track
⇧ ⌘ .	Stop the focused track on its STOP QUANTIZE

GETTING AROUND — ANY VIEW

← / →	Previous or next track. In BANKS, follows the bank
↑ / ↓	Audio row ↔ instrument row (ROWS layout)
Tab / ⇧ Tab	Next or previous control
⇧ ⌘ G	Write a loop-geometry report

LOOPER — LOOPER VIEW

Space / Return	Start a take on the focused ring
M	Mute or unmute the focused track
S	Solo it and clear every other solo
⌥ S	Add it to the soloed set

MIXER — MIXER VIEW

F	FADERS bus: MAIN → CUE → FX 1 → FX 2
1 / 2 / 3 / 4 / 5	Bank: Loop tracks, Instruments, Inputs, Master, Buses
M / S / ⌥ S	Mute, solo, add to solo (track banks)

ARRANGE — ARRANGE VIEW

⇧ Return	Perform from top
⇧ Space	Perform from here
⇧ ⌘ P	Performance stop. Loops keep playing
⌘ Z / ⇧ ⌘ Z	Undo or redo an arrangement edit
⌘ - / ⌘ =	Zoom out or in
⌘ 0	Fit the whole song
⌘ A	Select everything. Again to clear
L	Add an automation lane
Delete	Remove the selection
Esc	Cancel an armed jump, then clear selection

Regions, lanes and the ruler

MOVE BETWEEN REGIONS — ON A REGION

← / →	Previous or next region on the track
↑ / ↓	Region above or below, same point in the song
Home / End	First or last region on the track

EDIT A REGION — ON A REGION

⇧ ← / ⇧ →	Move one grid step (moves the selection)
⇧ ↑ / ⇧ ↓	Longer or shorter from its end
Page Up / Page Down	Move the start edge, end stays put
Return	New region straight after this one
D	Duplicate it straight after
T / ⇧ T	Move to the track below or above
V	Verb for new regions: REC → DUB → PLAY
⇧ V	Change this region's verb
Delete	Remove it, or the whole selection

SELECT — TIMELINE

S	Add to or remove from the selection
⇧ Home / ⇧ End	Extend to the first or last on the track
⌘ A	Everything, regions and nodes
Esc	Clear the selection

LANES — ON A LANE

↑ / ↓	Lane above or below
← / →	Previous or next node
